SUMMARY

Full Stack Developer with hands-on experience building and deploying real-world MERN applications, including a multi-tenant restaurant SaaS platform with 2+ paying clients. Strong in designing REST APIs, implementing JWT-based authentication, and handling real-time features using WebSockets. Experienced in working directly with clients, shipping features based on feedback, and managing end-to-end product development.

SKILLS

Core Stack: JavaScript, React.js, Next.js, Node.js, Express.js, Tailwind CSS, PWA, PHP

Backend & APIs: REST APIs, JWT Authentication, WebSockets (Socket.io), API Security (Rate Limiting, CORS, Validation)

Database: MongoDB, PostgreSQL, MySQL

Concepts & Tools: OOP, API Design, SDLC, Agile, Git, GitHub, JIRA, Vercel, Render, Firebase, Cloudinary

EXPERIENCE

Aakrutii Technology - Pune, India

Developer Intern [May 2025 - Nov 2025]

- Developed and deployed multiple client-facing web applications using React, Node.js, and PostgreSQL.
- Designed RESTful APIs to streamline business workflows and improve operational efficiency.
- Maintained version control and sprint tracking using Git and JIRA in an agile environment.

Ubisoft - Pune, India

Intern Game Tester [Feb 2024 – August 2024]

- Designed and executed 50+ structured test cases to identify functional and gameplay issues.
- Reported reproducible bugs with detailed logs, steps, and priority levels using JIRA.
- Contributed to QA documentation and improved testing workflows within the team.

PROJECTS

QRAR - Restaurant Ordering SaaS Platform [Dec 2024 – April 2025]

[GitHub](#) | [Live Demo](#) | [Dashboard](#)

- Built a multi-tenant SaaS platform enabling restaurants to manage menus, orders, and offers through a centralized system.
- Implemented secure backend architecture including JWT authentication, rate limiting, CORS policies, and input validation.
- Integrated Cloudinary for scalable image storage and deployed using Vercel (frontend), Render (backend) and MongoDB Atlas (Database).

FitPlay - QR-Based Gym Fitness App [Oct 2025 – Dec 2025]

Freelance Project | [GitHub](#) | [Live Demo](#)

- Developed a QR-based fitness platform for The Iron Gym enabling users to access exercise guidance instantly.
- Built using Next.js and Firebase with real-time data synchronization.
- Deployed on Firebase Hosting for a scalable, low-maintenance solution.

EDUCATION

MIT Art's Commerce and Science College - Pune, India

BCA - Computer Application [2021 – 2024] - CGPA: 7.70

Nowrosjee Wadia College - Pune, India

HSC – Science (PCM) [2019 – 2021] - Percentage: 81.17%
